

The Professor Garfield Foundation website is a free, online learning portal where children can safely explore, learn and creatively express themselves. It is a collaboration between Ball State University and Paws, Inc., the creative studio for the comic strip, GARFIELD®. The content boxes in the top half of this chart refer to the various web initiatives and are organized by subject matter and grade.

SPARKTOP.ORG™

SparkTop.org—where no two brains Spark alike—is a place where kids who learn differently can create awesome stuff...play great games...connect with other kids...and discover new ways to succeed in school and in life. Jim Davis, creator of GARFIELD® the cat, had to overcome asthma and a stutter as a young child and feels that ALL of us have some challenge to overcome as we learn.

The Professor Garfield

TEACHERS' LOUNGE

The purpose of the Professor Garfield Teachers' Lounge is to provide free, user-friendly, and standards-based learning materials for the classroom teacher, parent, tutor, or mentor. These materials are intended to support and supplement the ongoing work of the classroom teacher by providing leveled materials that are retrievable by grade level, subject, and/or national standard.
